

Journal Club

Dear Future Journal Club Member:

Perioperative nurse practice is influenced by innovation, technology, evidence-based practice (EBP), and nursing-sensitive outcomes, which form the components of value-based care. The eChapter Journal Club events will venture into current events, perioperative research, emerging technologies, and other topics of interest.

eChapter Journal Club is an open forum for perioperative nurses, affiliates, and subject matter experts to meet and critically evaluate research studies, current topics, or EBP guidelines. This journal club provides an opportunity for collaboration and discussion on how nursing/medical literature can be translated into clinical practice, education, administration, and /or serve to promote further research.

eChapter Journal Club is open to all individuals interested in learning, improving perioperative practices, and/or attempting to keep informed in this rapidly changing healthcare environment.

This eChapter event is open to anyone, including (not all-inclusive list):

1. Nurses working in various specialties related to procedural and/or surgical environments
2. Multidisciplinary team members from perioperative and complimentary service lines
3. Perioperative-associated nursing administrators, educators, clinicians, and researchers
4. Members of surgery-related professional organizations (i.e., periop, OR, SPD, L & D, ICU)
5. Nursing or technical students interested in perioperative care
6. Active or Retired healthcare professionals with an interest in current topics

***Quarterly offerings will be the third Saturday in August / November / February / May
Watch for articles to review and Zoom link prior to the event***

Bee There!
